

Senior Consultant | Building Codes

THE COMPANY

DC Partnership has been in operation since 2010, with a mission to create a building regulatory engineering & consultancy firm that provides clear and succinct advice on building codes to the built environment. Our goal is to enable the design and development of not only compliant buildings, but also beautiful and efficient ones, ensuring that any compliance methodology adopted allows for innovative design and engineering.

Since our inception, we have collaborated with award-winning teams of architects, designers, contractors, engineers, and other consultants. We are grateful for our fantastic clients who continually engage our services and recognize the value we add through our collective skill sets. DC PARTNERSHIP is seeking an experienced, talented and self-motivated **Senior Consultant | Building Codes** to join our Sydney team.

We are values-based company and 100% Australian owned and operated.

OUR VALUES

We take pride in our company culture and treat value alignment between the company and the individual very seriously.

Our core values comprise the following:

- Innovation
- Integrity
- Teamwork
- Growth
- Flexibility

THE ROLE

As a Senior Consultant in our Building Code team, you'll be a trusted advisor to clients, delivering high-quality BCA consultancy services across medium-to-large projects. Acting as lead consultant with minimal oversight, you'll provide clear, practical, and commercially aligned compliance advice, while applying performance-based design principles to complex projects.

This role combines technical expertise, project management, and client engagement with opportunities to mentor junior staff and contribute to the growth of DC Partnership's building code practice. You'll also have the chance to influence the wider industry through involvement in technical committees, standards development, and thought leadership initiatives.

Building Code Consultants

Key Responsibilities:

- **Technical Delivery:** Deliver high-quality building code services including assessments, compliance strategies, performance solutions, and reports.
- **Project Management:** Manage projects end-to-end — from scoping and programming to financial tracking and variation management.
- **Mentoring & Team Support:** Provide guidance and mentoring to junior staff, supporting technical consistency and team development.
- **Client Relationships:** Act as day-to-day contact for allocated projects, building strong relationships with architects, developers, certifiers, and contractors.
- **Business Development:** Contribute to proposals, identify cross-discipline opportunities, and represent DCP at industry functions.
- **Industry Contribution:** Engage with professional bodies and contribute to technical papers, presentations, and sector-wide initiatives.
- **Compliance & Governance:** Ensure strict compliance with NCC, Australian Standards, and QA/QC processes, while meeting accreditation obligations.

ABOUT YOU

We're seeking a highly skilled consultant who thrives in both technical and client-facing settings. You will have:

- Alignment with DC Partnership values (Integrity, Teamwork, Growth, Flexibility, Innovation).
- Proven experience in building code consultancy or a related field.
- Strong working knowledge of the NCC, Australian Standards, and performance-based design principles.
- Demonstrated ability to lead and deliver medium-to-large projects independently.
- Excellent written and verbal communication skills, with strong attention to detail.
- A collaborative, proactive, and commercially minded approach.
- Experience mentoring or developing junior team members (desirable).
- Relevant professional accreditation or registration (e.g., Building Surveyor) is highly regarded.
